CHANGE THROUGH ACTION LEARNING

AN ACTION LEARNING APPROACH

THIS CHANGE THROUGH ACTION LEARNING PROGRAMME COMBINES ACTION ON REAL-LIFE WORK-BASED ISSUES WITH REAL LEARNING.

ABOUT THIS PROGRAMME

The Change through Action Learning (CAL) Programme has been developed by Global Centre for Work-Applied Learning (GCWAL) for team leaders or supervisors who wish to learn how to use the Action Learning process in order to plan and implement projects with their teams.

This programme uses the Action Learning process to focus on real work problems and opportunities to produce individual and team learning which has significance for work.

The Action Learning process encourages greater collaboration between the facilitator and their team while problem-solving and finding solutions and generates a tangible return on investment through the development and implementation of Action Learning projects.

It also encourages innovation and creativity through the sharing of ideas by the facilitator and team members and enables them to learn and reflect on their experiences, which will be useful in subsequent projects.

This programme has a duration of 4 months with in-built facilitation and guidance from GCWAL Advisors. Participants remain at work and apply the learning to a real action learning project. This enables the learning to be directly integrated into the participant's work situation.
